Caveats: NONE

Good morning Emilio. I would be glad to visit with you on the phone. My schedule is flexible next Monday 10/6, Thursday 10/9, and Friday 10/10.

I spoke briefly with Dave Hvinden with the NDIC this morning and have CC him to this email. Mr. Hvinden is the Field Supervisor with the NDIC and had indicated that he would be the POC for any questions that you may have for the sampling event. His phone number is 701-328-8027.

Please let me know if I can help facilitate. Thanks, Will

Hi Will,

Thanks for sending the sample results from NDIC. I wanted to get more information on the 2nd sample '100 yards from the 'mouth of the bay.' Are you available for a short call sometime this week?

Also could you please let me know who I could contact at NDIC to get more information on the sampling they performed?

Thanks,

Emilio Llamozas

Hello Emilio. Thank you sending me the link with a report that was released by the Three Affiliated Tribes (TAT).

The Corps requested information from TAT and the responsible party, Crestwood, regarding any potential impacts from the brine to land/water under Corps jurisdiction. Prior to your email, TAT provided a digital copy of the same report. Since then, our Agency has been reviewing the report. The report provides a general description of events but it unfortunately does not include any specific sampling locations and/or results taken from Corps property.

The Corps made a similar request of information from the NDIC and NDOH, who had initially responded to the incident. The NDIC has provided results from water samples that their folks had taken at the site (\*see attached). While a map was not provided, it is my understanding that the water samples were taken within 100 yards from the 'mouth of the bay.' Based upon that description, I believe these samples were taken within Corps boundary. What are your thoughts on the results? Do you feel that they are at or above levels that would warrant any further action on Corps property?

Thanks, Will

Hi Will,

I found some information concerning the Arrow Pipeline spill clean up on the MHA website.

[http://www.mhanation.com/main2/Home\\_News/Home\\_News\\_2014/News\\_2014\\_09\\_September/Crestwood%20Arrow%20Bear%20Den%20Spill.pdf](http://www.mhanation.com/main2/Home_News/Home_News_2014/News_2014_09_September/Crestwood%20Arrow%20Bear%20Den%20Spill.pdf)

Please let me know what you think.

Thanks,

Emilio Llamozas

Good afternoon Emilio. The Corps has not received any information from TAT but it is my understanding that our OPM has received 'approval' from the Tribal chairman. We would like to cooperate with the EPA to gain more information that could help us understand impacts to our property. Thanks, Will

Hi William,  
I don't have the clean up plan for the spill. Have you been able to get a copy? I will check with others here at EPA.  
Thanks,

Good afternoon Emilio. Can you (or someone with the EPA) request spill information (cleanup plan, test results, etc) from the Three Affiliated Tribes at Fort Berthold? If so, please share that information with me. Thanks, Will
